## THE HEEBEE-JEEBEES: MEET THE BAND

### Cédric "Sedge" Blary

Cédric's musical career has split his focus in many directions, from Andean music to jazz clarinet and a cappella singing.

As the only Heebee-jeebee unable to memorize lyrics, he mostly sings nonsense syllables in a range usually reserved for pigeons.

He is the band's pitch-piper, principal bass, backseat navigator and resident punster.

### Ken "KennyV" Lima-Coelho

Ken was born without a falsetto, so Ken does everything in full voice - including whistle.

His involvements in music have included choir, marching band, and R&B pop before becoming a comedic a cappella enthusiast.

He is the head of public relations, high tenor, Proud visible minority, and principal custom song re-writer of the Heebee-jeebees.

### Jonathan "J-Lo" Love

Jonathan began his musical studies on piano but soon realized that his voice was his passport.

When not managing auditoriums, he is now a professional voice-over artist and instructor with lightning-quick wit and serious writing chops.

He is the head songwriter, lead baritone, assistant principal chauffeur and kick-in-the-butt delivery man for the Heebee-jeebees!

### Chris "Herard" Herard

Chris has been singing since the age of 7 and he often still sings the soprano notes!

With years of experience teaching school and judging marching bands, his ability to hear wrong notes continues to drive him crazy.

He is a car guy, the treasurer, high tenor, chauffeur, head recording engineer and sound man of the Heebee-jeebees.
